Agile Methodology

## Experience

### Frontend Engineer | Cadent

May 2021 - Present | Advertisement Technology | Philadelphia, PA

- Create and maintain Cadent's Internal micro-service web applications and Cadent's common component library utilizing React, Redux, Redux-Sagas, and React Query.
- Implement new features and manage support within micro-service applications that are fully functional across down-stream applications.
- Lead the upgrade of Cadent's internal applications to React 18 and other node package dependencies to the latest version.
- Conduct unit testing on individual components and Cadent's applications using React Testing Library and Jest to ensure high code coverage across all micro-service web applications.
- Create POCs for Cadent's frontend team to utilize the new technologies. Such as utilizing web components for our component design system, using react-native for iOS / Android features, and tested using different react versions with module federation.

### WordPress Developer & Designer Intern | Inverse Paradox

January 2020 - May 2021 | E-Commerce Web Agency | Hulmeville, PA

- Assisted, fixed, and created WordPress assets such as themes and plugins for various companies' websites.
- Conducted quality assurance tests during pre-launch and post-launch checkpoints for production websites.
- Designed home and interior pages for future-live websites with UX designers.
- Communicated directly with clients regarding website assets, support, and demonstrations through video conferencing tools and emails.

### Apprentice | Philadelphia Mural Arts

June 2017 - November 2018 | Mural Arts Organization | Philadelphia, PA

- Assisted artists with plotting, painting, and installing murals within communities of Philadelphia.
- Engaged in community events to spread awareness and the importance of the mural arts program.
- Practiced how to render painting and create distinct color palettes.

## Education

### Bachelor of Science, Web Development & Design

Class of 2021 | Thomas Jefferson University | Philadelphia, PA
